System Capabilities are for guideline purposes only based on WT 243 fabric and do not guarantee that a shade with any fabric can be made to these dimensions. Width and length may vary depending on selected shade fabric. Visit WTShade.com or contact Customer Service to verify system capabilities based on project specific selections.

### Window Blind Cord Strangulation Risk

Window blinds with a damaged or loose tension device or retractable cord that fails to fully retract pose a strangulation risk to children. To avoid this potential strangulation risk, consider purchasing cordless products or products with inaccessible cords.

### Elimina el riesgo de estrangulamiento del cordón de la persiana

Las persianas con dispositivos de tensión suelto, dañado o con un cordón retráctil cuyo mecanismo se encuentre deteriorado, representa un riesgo de estrangulación para los niños; por ello prefiera comprar productos con sistemas inalámbricos o con cordones de difícil acceso.
