# THE SINGLE SOLUTION FOR EVERY INSTALLATION

When it comes to selecting the right window treatment for your solar control project, the priorities of an installer might be very different than that of an architect, designer, or homeowner. With the SoloMount Bracket® series, there is one hardware solution to please them all, and it is only available at WT Shade®.

## THE SoloMount BRACKET®

*One bracket... So many possibilities.*

LEARN MORE ›

Any WT Shade system mounted with the SoloMount Bracket® is a guarantee of a worry-free installation. Whether needing to change from ceiling mount to wall mount, extend the bracket away from the mounting surface, or even join multiple brackets together, a SoloMount Bracket will ensure the solution is already in hand. Installing in half the time as other shading hardware, these adjustable, fascia compatible brackets are available for manual or motorized shading systems and come in single or double shade configurations.

## SOLOMOUNT® FEATURES:

**Adjustable Mounting** flange can be moved from ceiling to wall mount in a pinch.

**Metal-to-metal** contact attachment points for other shading hardware guarantees a reliable connection to the brackets.

Flange is **extendable** on many bracket models, allowing for adjustment for unexpected installation conditions.

Compatible with **Front Fascia and Rear Fascia** or a combination of both.

**Contoured shape** guides components into position.

Requires only **2-3 screws** to install.

**Available in White or Black,** brackets will be color coordinated based on your selected fabric color.

Center joiner plates can be used to **join two brackets together.**

**Set-screws** allow for attachment of WT Shade clutches for a safe and secure manual shade installation.
